Re: EPA Reg No. 99294-2

The HealthGuard Corporation Pty. Ltd. (HGC) of Australia is pleased to announce that our market leading <u>non</u> heavy metal base anti-microbial treatment, HG AMIC has received United States (US) Environmental Protection Agency (EPA) approval.

After countless market requests, we are excited to open our doors to the US market with our premium HG AMIC, which has been successfully commercialised globally for over 25 years, with a second to none safety record.

HG AMIC EPA approval allows for treated article export to the US, boasting over 70 approved site applications for incorporation into an almost non-exhaustive list of end use treated fibres and textile products:

With such a wide range of applications, HG AMIC has to be one of the most versatile products in the anti-microbial market today.

HG AMIC is a product effective against odour and stain causing bacteria to be used in the manufacturing process.

HG AMIC is incorporated into materials during the manufacturing process to the final manufactured products. The materials are to be used in the final manufacturing process as the final articles, or as a material incorporated into the final articles.

HG AMIC suppresses the growth of algae, mould, mildew, fungi, and bacteria that cause unpleasant odours, discoloration, staining, deterioration, or corrosion.

Please contact us or your local agent for authentic HG AMIC swing tags thoughtfully designed to communicate the benefits of protecting your products to assist in reducing the frequency of launder and keep your products looking fresh and new for longer.

ABN: 30 082 752 378 / ACN: 082 752 378

HG AMIC is extremely economical to use in all approved applications, HG AMIC is easy to apply by padding, spraying or exhaust. HG AMIC is compatible with many different cationic finishes, especially micro emulsion silicone softeners.

In conjunction with our US approval, we confirm:

- HG AMIC is non-heavy metal based.
- HG AMIC is non-bio accumulative.
- HG AMIC is ZDHC Level 1 certified.
- HG AMIC is Oeko Tex Active Chemical Product listed.
- HG AMIC is Tox Services certified.
- HG AMIC EU BPR and GBPR compliant.
