CHEMICAL EXPERTS

BIOCON CRO 100

WET RUB FASTNESS IMPROVER

BIOCON CRO 100 is a special high molecular weight cationic compound for improving wet & dry rub fastness for all types of dyed & printed cotton fabrics and its blends. It is suitable for sulphur, reactivities, direct & indigo dyed goods.

The wet rubbing fastness of cotton, polyester, T/C fabrics etc. can be improved significantly. No influence to washing, and perspiration fastness, and handle of fabric. It is extremely effective on indigo dyed denims.

EASILY SOLUBLE IN COLD WATER.
